

# Esstisch XL

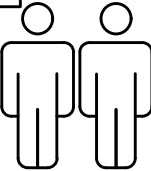

Bitte achten sie bei der Montage auf eine saubere Bodenoberfläche, da der Tisch rücklinks montiert werden muss!

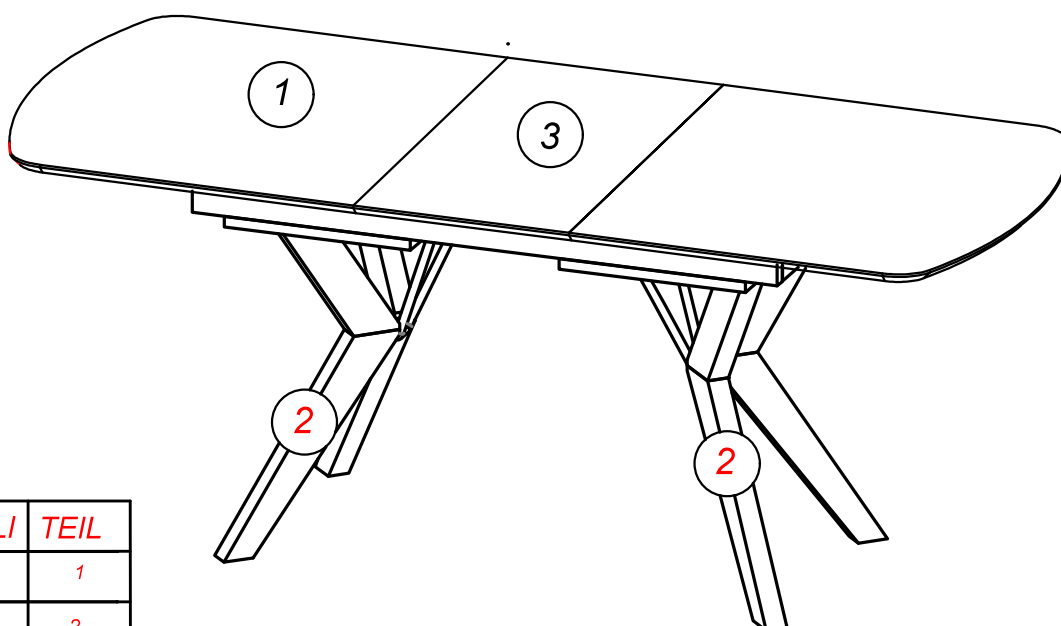

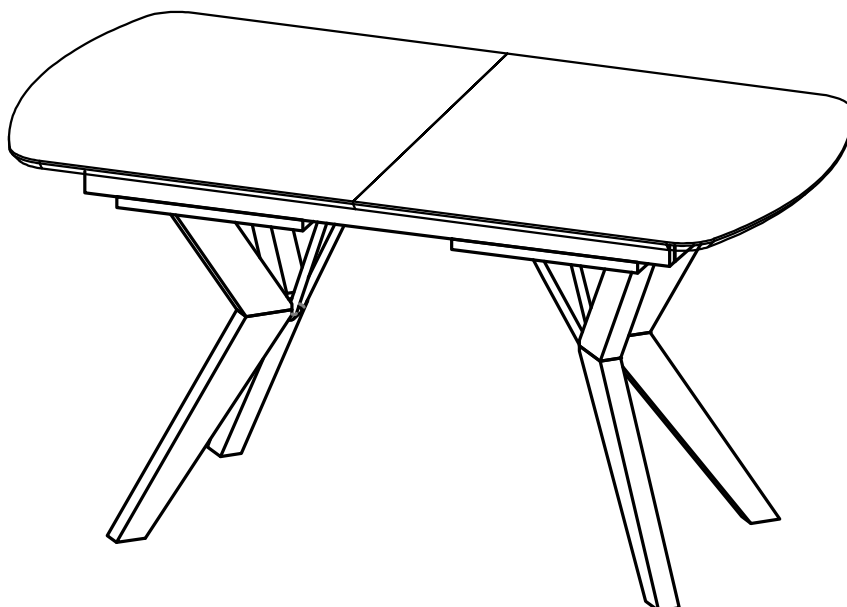

Für die Montage benötigen sie:

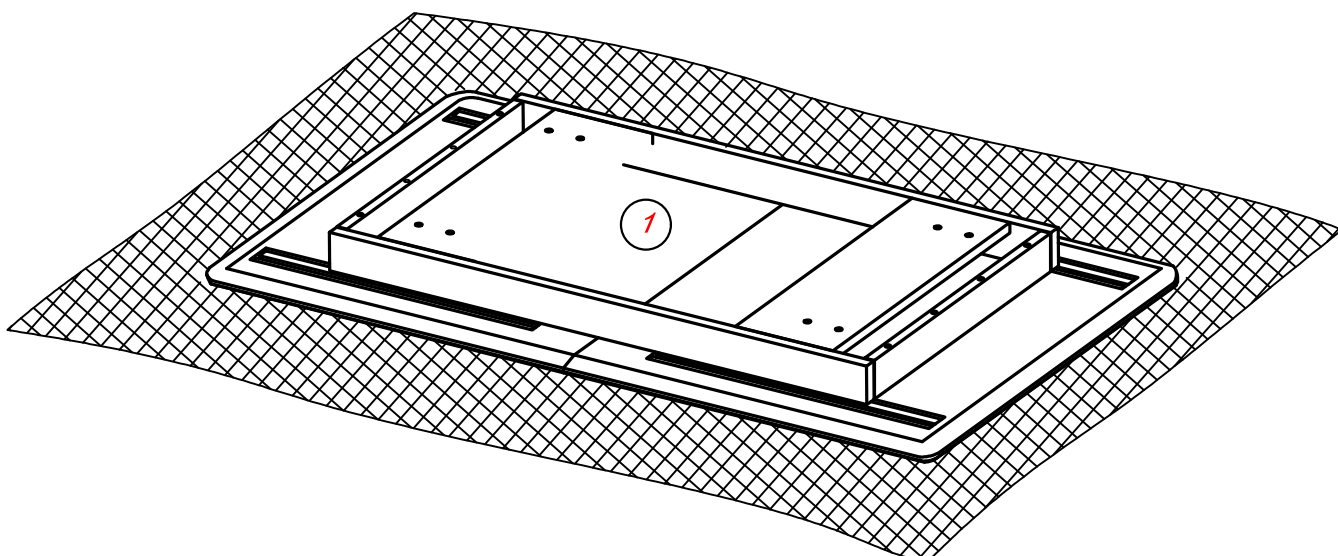

20 min

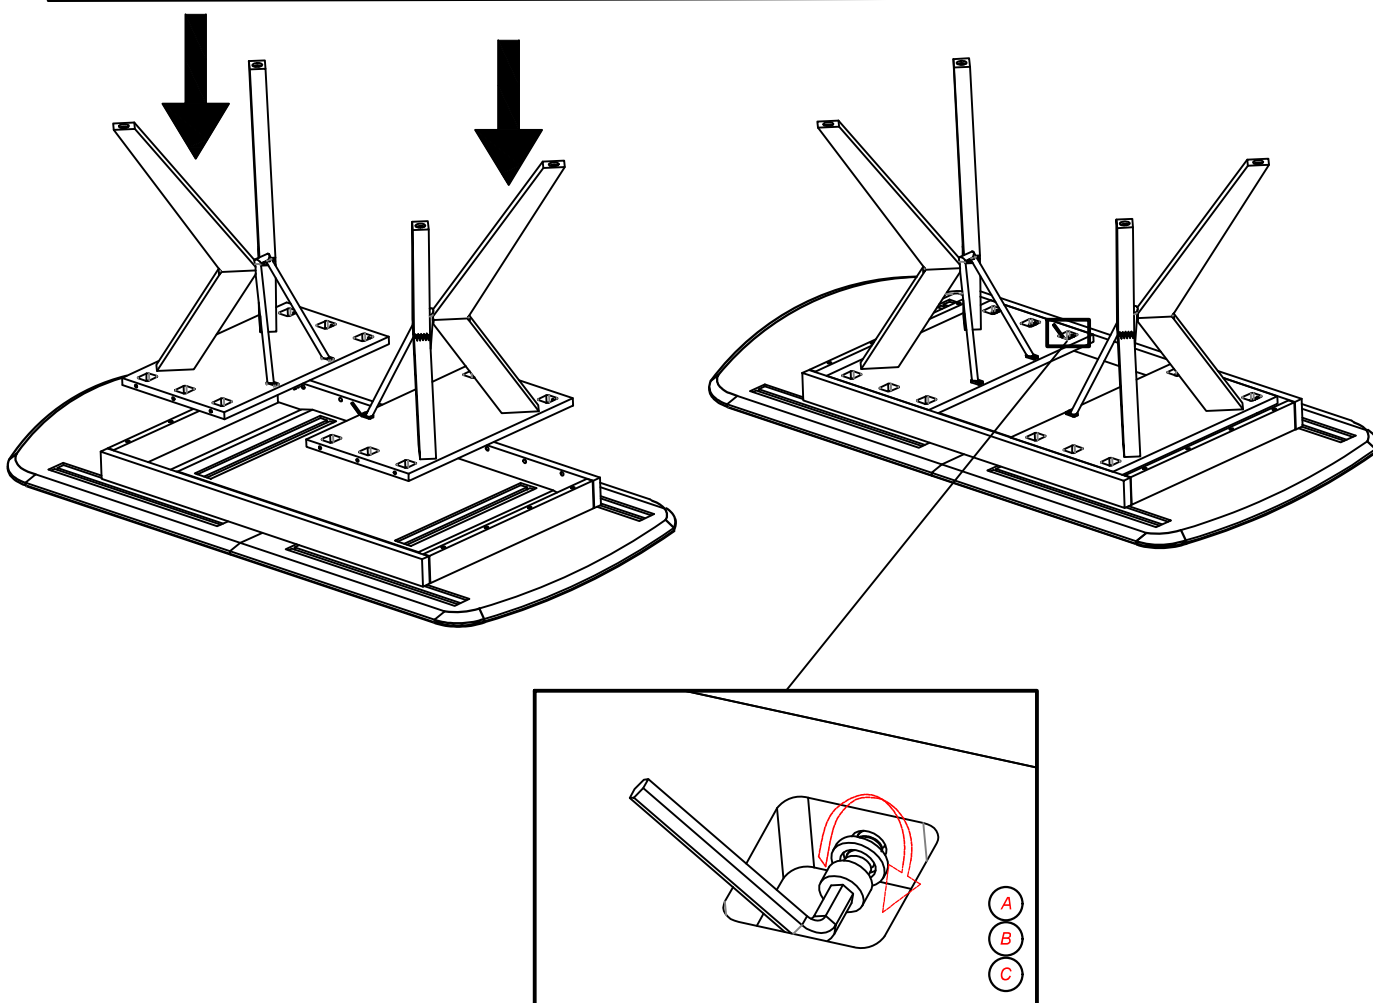

|                                                                                   |                                                                                   |                                                                                   |                                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| <b>A</b>                                                                          | <b>B</b>                                                                          | <b>C</b>                                                                          | <b>E</b>                                                                          |
|  |  |  |  |
| Menge: <b>M6/40</b>                                                               | Menge: <b>12 M6/12</b>                                                            | Menge: <b>12 5</b>                                                                | Menge: <b>1 2</b>                                                                 |

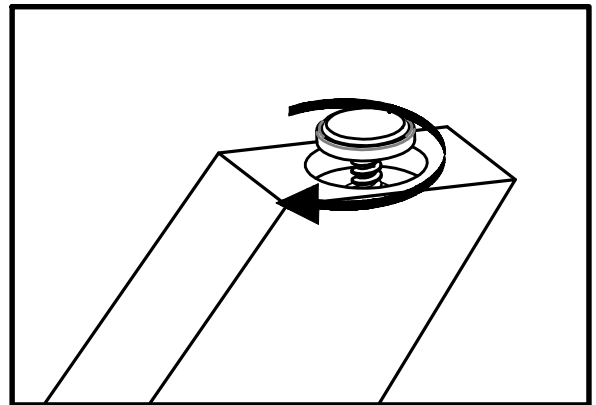

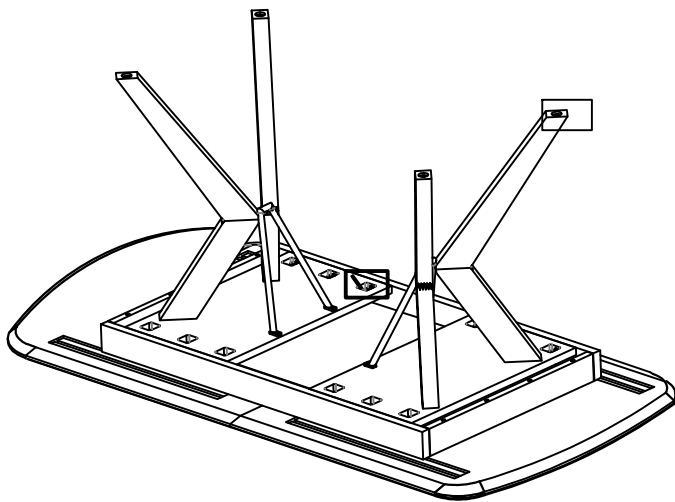

| COLLI | TEIL |
|-------|------|
| 1     | 1    |
| 2     | 2    |
| 1     | 3    |

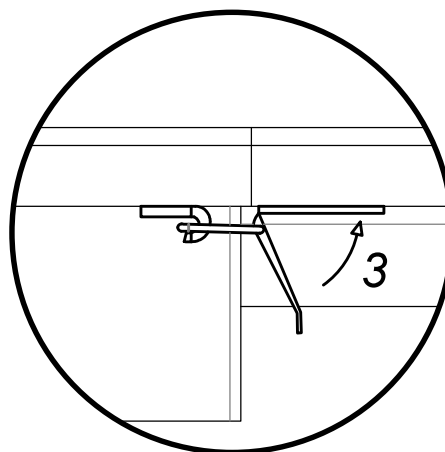

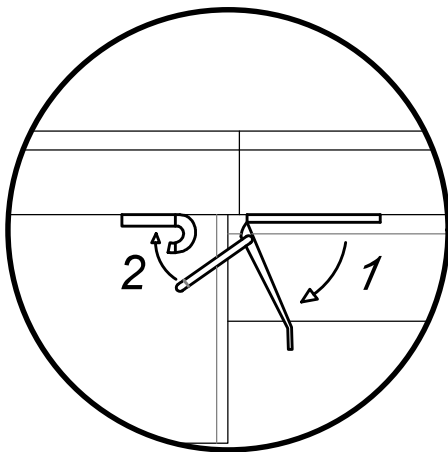

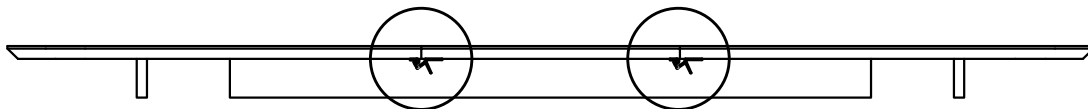

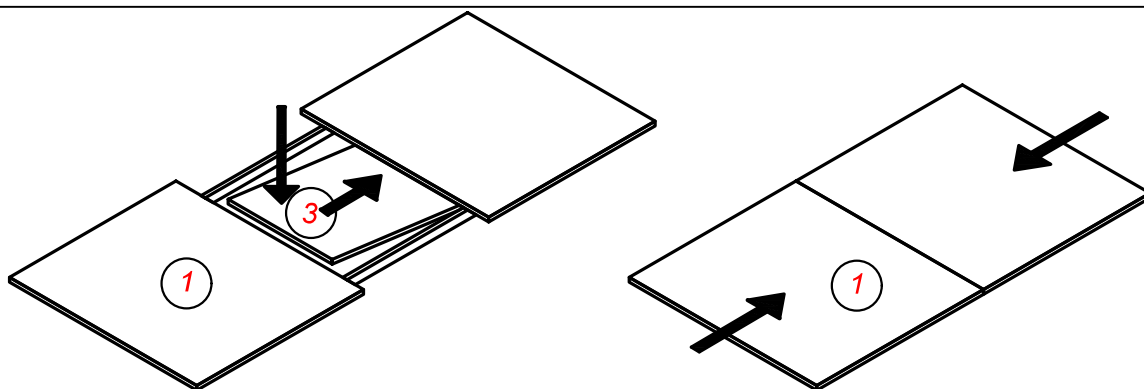

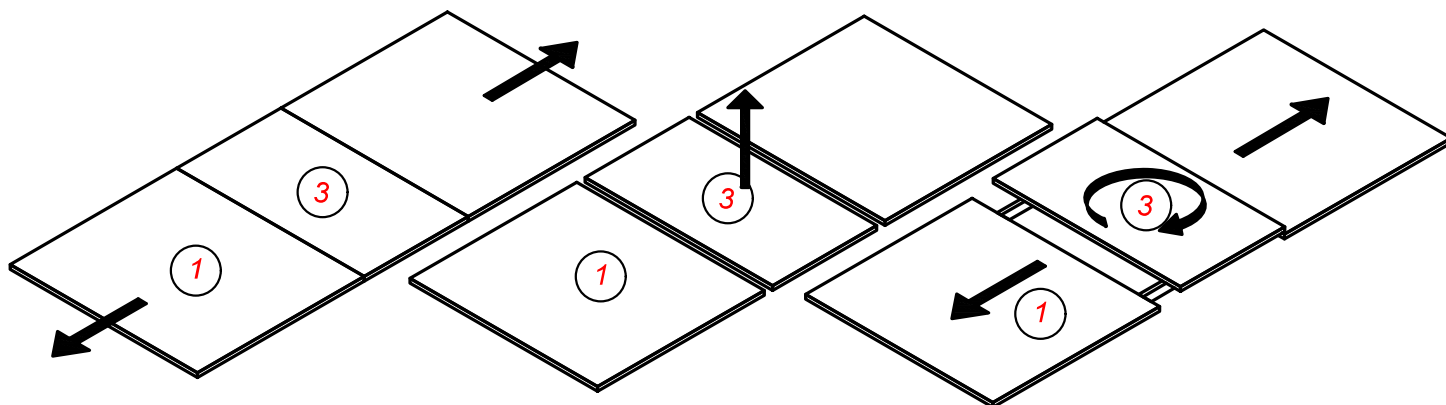

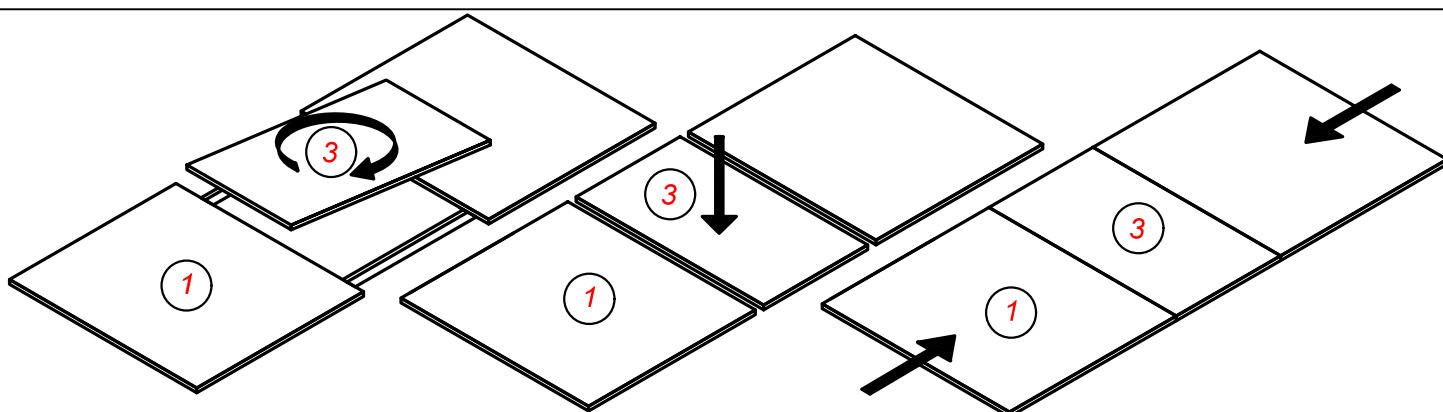

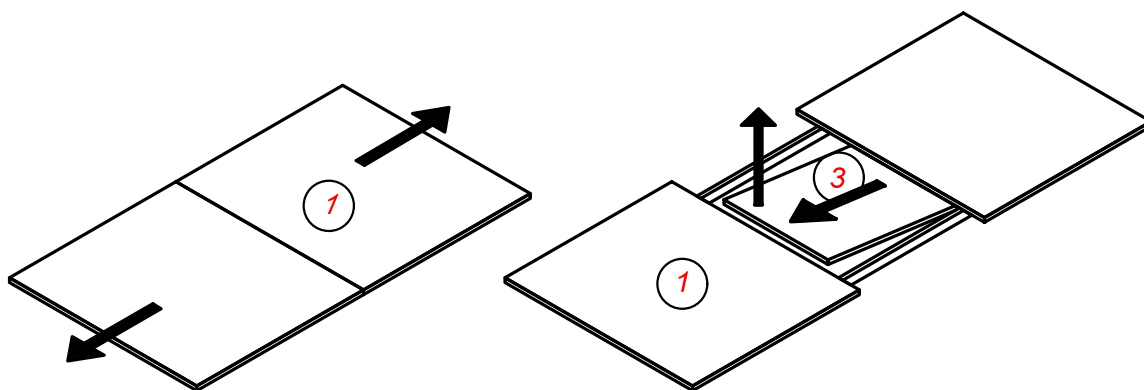

*Vor der Montage des Tisches, die Platte auf einen weichen Untergrund legen, um Beschädigungen zu vermeiden.*

*Stellen Sie die Nivellatoren durch auf und zudrehen so ein, bis die Bodenplatte bei der Tisch vollständig flach auf dem Boden steht.*
